

The 2nd Workshop on Large Language Models in Practice

Introduction:

With the rapid development of Large Language Models (LLMs) technology, their potentials in real-world applications are becoming more and more apparent. The 2nd Workshop on Large Language Models in Practice has been organized to further explore the latest advances and challenges of these models in various application scenarios. The workshop aims to bring together experts, researchers, and practitioners from academia and industry to share practical application cases, innovative approaches, and future directions of large-scale language models. The conference will provide a platform to promote cross-disciplinary collaboration and knowledge sharing through keynote speeches, technical demonstrations, and presentations of peer-reviewed papers. The workshop is particularly focused on how to translate theory into practice and explore the real impact of large-scale language models in the real world.

Topics of Interest:

We welcome contributions in, but not limited to, the following areas:

- Applications and Development of Large-Scale Language Models
- Optimization Strategies for Large-Scale Pre-Trained Models
- Multilingual Models and Their Cross-Language Applications
- New Advances in Natural Language Generation and Understanding
- Applications in Information Retrieval and Question-Answer Systems
- Technical Challenges in Sentiment Analysis and Opinion Mining
- Customization of Language Models for Specific Domains
- Security and Privacy Protection of Large-Scale Language Models
- Ethical Considerations and Social Impact Assessments

- Dataset Construction and Evaluation Criteria
- Models Compression and Efficient Deployment Schemes
- Advances in Dialogue Systems and Human-Computer Interfaces
- New Techniques in Text Summarization and Machine Translation

Important Dates:

- Submission deadline: 30th July 2025
- Review deadline: 15 August 2025
- Acceptance deadline: 30 August 2025
- Camera-ready: 20th September 2025
- Program ready: 15th November 2025

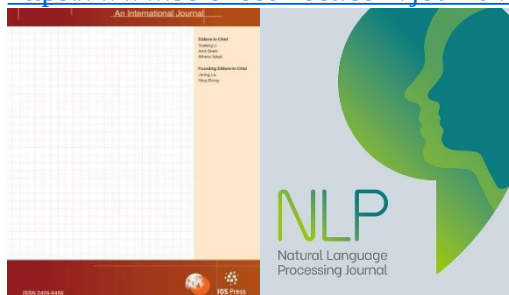

Submission Information:

We invite submissions that are one-page abstracts, short (4 pages)/full (8 pages) papers, case studies, surveys, and technical papers for The International Workshop on AI and Computer Science.

Journal Opportunities:

Accepted papers from this workshop can be invited to publish an extended version in a special issue of:

- Web Intelligence (ESCI)
- <https://www.iospress.com/catalog/journals/web-intelligence>
- Natural Language Processing (ESCI)
- <https://www.sciencedirect.com/journal/natural-language-processing-journal>

Workshop Awards:

- A Best Paper Award (\$300)
- Two Volunteer Awards (each \$200)
- A Student Traveling Award (\$500)

Workshop Chair:

Jiashu Zhao, Wilfrid Laurier University, Canada

Yue Feng, University of Birmingham, UK
